

# Intergovernmental Personnel Act (IPA) Mobility Program

Project Specialist, Denver Service Center

## Your Expertise. Our National Parks. A Lasting Impact.

Are you a Project Specialist looking for a role where your expertise directly contributes to something truly monumental? Imagine an opportunity where every project you touch helps preserve America's most cherished natural and cultural wonders for generations to come.

The Denver Service Center (DSC) is the heart of planning, design, and construction for the entire National Park System. For over 50 years, we've been the 'go-to' experts, transforming visions into tangible infrastructure that supports and enhances the visitor experience while protecting priceless resources.

## About the IPA Program

- ✓ **Temporary Collaboration:** A two-year IPA Mobility Program assignment, funded by the National Park Service (NPS).
- ✓ **Mutual Benefit:** Facilitates talent exchange between the Federal Government (NPS) and non-Federal organizations (e.g., universities, state/local governments).
- ✓ **Shared Impact:** Strengthens management, transfers new technologies, and benefits both the NPS and the home organization.

## Your Role as a Project Specialist: Beyond Blueprints.

### Shaping the Future

Assist with project initiation, scope development, and estimates for critical design and construction.

### Collaborating for Success

Work closely with diverse teams—architects, engineers, contractors, and park staff—to ensure on-time, on-budget, high-quality project delivery.

### Navigating Unique Challenges

Tackle complex projects involving sensitive resources, multi-year phasing, or high public interest, requiring keen judgment and unique solutions.

### Project Oversight, Not Design

This role focuses on managing and coordinating projects, collaborating with design professionals rather than performing design work.

# Why the Denver Service Center?

AN OPPORTUNITY WITH IMPACT: EXPLORE THE UNIQUE BENEFITS OF BUILDING A LEGACY WITH THE NATIONAL PARK SERVICE.

## Building a Legacy for America's Best Idea

Joining the Denver Service Center (DSC) means more than just a job; it's a commitment to preserving and enhancing America's most cherished places. As the central planning, design, and construction project office for the National Park Service (NPS), we're at the forefront of vital initiatives.

## A Collaborative Environment for Excellence

At DSC, we foster a truly collaborative and supportive work environment. You'll be part of an interdisciplinary team that thrives on complex challenges.

- ✓ Technical Expertise
- ✓ Strategic Impact
- ✓ Diverse Projects
- ✓ Federal Requirements

### Protecting Priceless Resources

Your work ensures the longevity and integrity of natural and cultural resources across the National Park System.

### Enhancing Visitor Experiences

Projects focus on improving visitor access, safety, and enjoyment through modern, sustainable infrastructure.

### Teamwork on Grand Scale

Collaborate with parks, regions, other federal agencies (USFS, USFWS), and external partners on critical, high-visibility projects.

### Tackling Unique Challenges

Apply your skills to problems requiring advanced judgment and unique approaches in diverse park settings.

**Your Next Great Adventure Starts Here.**
